

EKKO

AR Camera

By Ruoda Yuan

Snapshot

Photo & Video, Rated 12+

Description

Ekko is an AR-powered camera for users to take delightful videos and live photos with the virtual world. Any AR object or environment can be overlaid on the camera module and recorded, with audio stream from the phone's camera. It allows users to record video content with AR objects and save the result to their phone and share them later to friends or other apps.
